Willing to Relocate: Anywhere

Professional Summary

Creative and detail-oriented Frontend Web Developer with expertise in building modern, responsive, and user-friendly web applications. Skilled in React.js, Next.js, TypeScript, Tailwind CSS, and Figma, with experience delivering high-quality projects ranging from non-profit platforms to travel websites, and interactive animations. Strong foundation in problem-solving, design implementation, and user experience optimization. Actively freelancing, with a proven record of collaborating with clients to bring ideas to life.

Technical Skills

- **Languages & Frameworks:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js
 - **Styling & Design:** Tailwind CSS, Responsive Design, Figma, UI/UX Implementation
 - **Tools & Platforms:** Vercel, GitHub, Version Control (Git)
 - **Other Skills:** Wordpress, API Integration, GIS
-

Projects and Portfolio

Amond Souls Foundation – Nonprofit Website (2022)

- Developed a responsive NGO platform to connect less-privileged individuals with donors and organizations. Integrated donation and volunteer features to support accessibility and social impact.

Forest Information Portal – Research & Conservation Website (2023)

- Designed and developed a digital portal showcasing forest data for Southwest Nigeria, enabling stakeholders and policymakers to make informed decisions. Implemented interactive visual elements for easier navigation and data presentation.

Vacation & Travel Booking Platform (2022)

- Created a user-friendly travel website that allows travelers to browse destinations, compare options, and book vacations. Focused on responsive design and seamless booking experience.

Karate Training Website (2024)

- Developed an engaging platform that highlights karate expertise, training programs, and instructors. Integrated media galleries for events and tutorials to increase user engagement.

Animation Showcase Website (2023)

- Built an interactive platform to demonstrate high-performance animations and transitions using React and Tailwind CSS. Optimized for smooth rendering and performance.

Restaurant Website (2022)

- Designed a restaurant showcase website that displays menu categories, chefs, and customer reviews. Implemented a modern UI/UX for better customer attraction and retention.

Airdrop Landing Page (2025)

- Developed a responsive landing page for a cryptocurrency airdrop project where users can easily claim tokens by submitting their wallet address. Focused on clean UI, smooth form handling, and mobile responsiveness.

Dental Clinic Website – Appointment & Consultation Platform (2026)

Building a modern dental clinic platform where patients can:

- Book appointments with doctors for treatments.
- Chat directly with doctors via WhatsApp integration.

- Access a directory map to guide patients to the clinic's physical location.
 - Ensuring responsive design and smooth user experience across all devices.
-

Professional Experience

Freelance Frontend Web Developer | Remote | 2022 – Present

- Collaborated with clients across industries to deliver custom, responsive, and scalable web applications.
 - Designed and deployed projects on Vercel ensuring fast performance and SEO optimization.
 - Translated UI/UX designs from Figma into functional web applications.
 - Maintained client satisfaction through strong communication, timely delivery, and continuous support.
-
